## IPv6 White Paper

Personal data Protection in the Arab region in light of international standards

The Arab ICT Organization (AICTO) is an intergovernmental body operating within the Arab information society strategy framework, fostering regional ICT cooperation, policy alignment, and digital capacity building across 22 Arab member states.

#### 4 Strategic Working Groups

**WG1**

Digital Transformation

**WG2**

Digital Innovation

**WG3**

Digital Trust

**WG4**

Digital Inclusion

#### Key Activities:

- ✓ Policy harmonization & ICT regulatory coordination
- ✓ Technical assistance & consulting for member states
- ✓ Capacity building in AI, cybersecurity & digital trust
- ✓ Arab Digital Capital Initiative (Tunis 2026)
- ✓ AWAIL Dialogue: Women's leadership in AI & Cybersecurity

# Convergence Analysis

## DIGITAfrica Needs

- ✓ Policy & governance framework
- ✓ Needs & gaps analysis (Arab Africa)
- ✓ Capacity building (AI, data, cyber)
- ✓ Female & young researcher inclusion
- ✓ North African community reach

## AICTO Capabilities

- ✓ ICT policy harmonization expertise
- ✓ Studies, reports & technical knowledge
- ✓ Active training & capacity programs
- ✓ AWAIL Dialogue & Girls in ICT programs
- ✓ 22 Arab member states across Africa

# AICTO's Potential Contributions to DIGITAfrica

## 1. Governance & Policy Input

Relay institutional voice of Arab-African states into DIGITAfrica Blueprint. Coordinate regulatory alignment with ministries of digital affairs.

## 2. Technical Studies & Data

Feed WP1 (Needs & Gaps) with AICTO's studies, technical reports and ICT assessments covering North African countries.

## 4. Community & Network Mobilisation

Mobilise Arab-African technoparks, regulators, and enterprises to join the DIGITAfrica Community as institutional members.

## 3. Capacity Building Programs

Co-deliver AI, cybersecurity & data science training. Coordinate with DIGITAfrica Summer Schools for Arab-speaking participants.
